A Message from the Superintendent

Dr. Steven Bebee

BUHSD Parents and Guardians,

We have had a great start to the 2022-23 school year, and we are so excited to see our students and their families back on all our campuses and to experience the positive energy that exists with starting a new year. Over the summer we have been able to truly align the instructional minutes on the three comprehensive school campuses to all be the same. In doing so, we now have 90-minute blocks for educational purposes that allow us to better meet our students instructional needs, have more time for those important hands-on experiences, and have time for reteaching and enrichment as a part of every class we offer. We are excited for the opportunities that each new school year provides our students and as the year progresses, and the activities that will shape the climate and culture of our schools and make our campuses those viable learning spaces for our students. As a district this school year we will be focusing on helping all students to make good decisions and recognizing them for those efforts versus always focusing on the negative behavior that is sometimes displayed. As an added challenge to the students in BUHSD to give back to their communities, I have started the "Superintendent's Challenge". As a part of my challenge, students who complete community service hours will be recognized on each campus and can earn a varsity letter and/or cords to wear at graduation. The information about my challenge can be found on the district web page under the Superintendent's page. I hope all students decide to take me up on this challenge and I wish everyone an outstanding 2022-23 school year.

**Sincerely,
Dr. Steve Bebee
Superintendent**
